

SCREEN MIRRORING I-PHONES TO TV

Bigger screens like that of a TV is the ideal medium for learning from home as it gives a better live experience and is gentler on the eyes as compared to mobile phones.

Here are a few ways in which you can connect your IOS phone to your TV to achieve screen mirroring:

- 1 HDMI:** All you need to do is to connect your phone to the TV using an HDMI cable (if your phone does not have an HDMI port, you can get a micro USB-to-HDMI adaptor)
- 2 Chromecast:** Make sure your mobile phone or tablet is on the same Wi-Fi network as your Chromecast device. Open the Google Home app  Tap the device you want to cast your screen to Tap Cast my screen  > Cast screen
- 3 Set Top Box:** There are some set-top boxes that allow you to mirror your phone's content with your TV wirelessly. This is done by connecting both devices—phone and TV—to the same Wi-Fi network and turning on the mirroring feature.
- 4 Screen Beam Mini 2:** This is a device which connects the IOS phone to TV via Bluetooth and a cable.
- 5 Apps:** Here are a few apps that you can download for screen mirroring—
 - Screen Mirroring for Smart TV
 - Mirror for Samsung TV
 - Power Mirror
 - Microsoft Remote Desktop
- 6 Airplay to an Apple TV**
